EOUITABLE BANK ORDERED CLOSED

Institution Organized by Postmaster Van Cott and Political Associates Put Out of Business by Comptroller Ridgely.

The Equitable National Bank of the was closed to-day by order of Comptroller of the Currency Ridgely.

This action followed a meeting of the ficers and directors of the bank yesterday, at which it was decided that to carry \$42,000 of worthless paper, a heritage from the old management, there was no use in keeping up the struggle any longer.

It was, therefore decided to ask the a receiver, and a message to this effect Comptroller Ridgely acted promptly,

were paid off promptly and it was said at the bank to-day that others would be paid by the receiver as fast as they presented their claims.

Postmaster Van Cott and a number of his associates in his political district organized the Equitable National Bank in May, 1902, and it opened for Cott was President of the bank, which never did very much business. The present management and the bank examiners have denounced the old management repeatedly, especially because of the injudicious loans that it made,

The methods of the Van Cott management certainly got the bank into difficulties, and last August it was deided to reorganize. Carl Randolph Schultz, son of the soda-water man, and boy of twenty-seven, was made President. Much was published at the time bout the young man, who was said to be the youngest bank president in the world. Julius Hammerslough was slected First Vice-President, E. G. Gil-more Second Vice-President and Owen

T. Reeves, ir., cashier. The new officers made a desperate fight to save the bank, but could not. They were too heavily handicapped by weight of worthless paper. At the meeting yesterday Mr. Van Cott and number of others were present and after going thoroughly over the situa tion they agreed that there was nothin

tion they agreed that there was nothing to do but liquidate. A statement was issued that all depositors would be paid in full and then the Comptroller was asked by wire to act.

The Equitable National Bank is capitalized at \$200,000. It has all depositors, to whom \$185,000 is due. The askets are said to be \$285,000, not including \$27,000 in bad paper.

President Schultz when seen to-day at his residence, No. 23 West Ninth street, made this statement of the trouble:

street, made this statement of the trouble:

"It is simply a case of getting out. We decided yesterday that we would have to do it. The appointment of Mr. Zdgely as receiver is only temporary. So will not act until the depositors have been paid off, and then we expect the appointment of Mr. Reeves, our cashier, as permanent receiver.

"At least we have petitioned for his appointment. Mr. Reeves was once a National bank examiner and fully competent for the task. I think we have paid off about a half of our depositors and the others are well covered by our assets. No one will lose anything so no one need get in the least excited."
"How about this talk of bad paper and bad management?" asked an Evening World reporter.
"The so-called bad paper," answered

and bad management? asked an Evening World reporter.

"The so-called bad paper," answered Mr. Schultz, "is an heirloom from the old management. You see, we have only been in since Sept. 1, and we found this paper here when we came. It amounts to \$42,000, and we have instigated suits for the recovery of a large part of this."

The other officers of the bank declined to discuss the situation. Receiver Ridgely also refused to make any statement. There was no excitement at the bank to-day, depositors having all been assured by letter that they will be paid off within a west.

There was a small run on the bank yestenday when the fact that it might close became known. Depositors who appeared before the regular closing time were paid off promptly and it was said

LONDON STOCKS IMPROVE.

Sentiment More Cheerful. Several local bankers who are well acquainted with the business of S. Lurhmann & Son, of Bremen, said to-day that it will not cause any embar-rassment to other firms. Although the banking-house was a very old one, it is not believed by these that it's business was large enough to cause even a flurry, except sentimentally. Locally, were still sensitive. The big fire at it will not cause any worry, and will was more cheerful, the sales having relaxed, though the were still sensitive. A manager for a large bond house in speaking of the light bond businers said that it was useless to epect to sell bonds on a 3 per cent, basis when there were many good stocks that were safe investments which are selling much lower.
